

I am writing to comment on the proposal to give priority to LPFM stations over regional FM services for stations like K-Love radio network. K-Love is very important to me and my family. I live in a small, rural community and K-Love meets my families need to have wholesome family-friendly radio. If this station is replaced by an LPFM station that programming would be taken away from me and my family would be left without a radio station to listen to. In our area we only receive pop stations and country stations. K-Love is the ONLY Christian radio station available to my community. The service K-Love provides to my community is fantastic. It gives us an alternative to music that uses profanity, sexual content, violence, and other inappropriate material that is unsuited for children. Please allow K-Love and other similiar stations to continue broadcasting as they are. Taking away this service would be in poor judgement.
